

Greetings Fellow RGGC Members,

With the holiday season quickly approaching, I would like to take this opportunity to say thank you for your trust and your support thru this difficult year and to take a moment and to reflect on my life as I hope each and every one of you take the time to do. Lots of good people lost their lives and or the lives of their loved ones this past year, oftentimes for senseless violence and it really wasn't the fault of a gun or a car. Please make sure to hold and cherish your loved ones, your parents/grandparents/children/friends and spouses because in the blink of an eye they can literally be gone forever. I am sharing a special letter with everyone that I have written especially for this holiday season....

Dear Santa,

I know it has been a long time since I wrote to you, it's amazing how fast this past year has went by. I have a couple of things I would like to ask you for and I admit that I have been mostly bad this year so please forgive me. These are the things that stick in my mind that I should probably apologize for. I am sorry for kicking out those dipshit gun club members for the rest of the millennium who gave out our manual gate combination; clearly a 25 year ban would have been more than sufficient to get my point across. Water boarding members by dunking them in a fish tank until all the fish were gone was definitely a violation of the fish's rights.

Meowing in Chinese restaurants is clearly over the top and I admit I shouldn't have chased those 3 Muslim men around Walmart with that package of bacon that night in July, but boy could they run! Lol. I don't really hate those shiftless loser cardboard ranger freeloader idiots on every street corner these days; after all I even chucked a dollar out the window at one of them. How could I have known that rock would bounce like it did??? I am sure after he got back up he found the dollar that was wrapped around it and was thankful for my contribution to his retirement.

Not all building inspectors are scum sucking maggots and I was really only helping my neighbors get their exercise when I was dry firing that one time. SMILE

I apologize for wishing that punk at the Salida gun store to zip his little weenie up both directions, clearly just zipping it up one direction would be sufficient and it was wrong of me to yell at that weirdo with green hair at the McDonald's drive thru for screwing up my quarter pounder with cheese. It's not his fault his mother sent him to public school...if he knows his mother that is.

When I shook up all those cans of soda at that barbecue I really didn't think that anyone would open one of them up next to that lady dressed like Cinderella. Even you had to laugh when she tripped over that cooler. Making jokes about my lovely fiancée Nikki being my sister and us being from Rockvale when I was kissing her in front of those lesbian massage therapists on Valentine's Day was completely inappropriate of me as I should have said we were from Arkansas.

Laughing at that pawnner who came in to pawn his lawn mower that I made show me that it worked by having him mow the entire lawn first before I pawned it for him and for cross firing 5's on that asshole's target in the next lane who kept sneezing and farting the entire match was wrong of me. It was pretty funny when we were scoring targets and he had 18 holes on his target, 8 of them only worth 5 points each, lol! I am of course deeply sorry for my actions towards both of those fine human beings.

I shouldn't have thrown my Pepsi on those PETA supporters who were yelling obscenities at me over those trespassing alpacas who accidentally got shot on our range, by some moron most likely from the road. No doubt those PETA protesters were chai tea drinkers or something else bland and metro sexual. And I am really sorry for putting Trump signs in those hate your country communist Hillary Clinton supporters yards this past year but I was trying to help them see the error of their ways. lol

And Santa, if you could see your way past my minor transgressions, the ones I listed for you and the ones I might have overlooked, I would love for you to deliver totally operational by solar and regular electricity electronic gates in the next couple of weeks. I would also like to ask that in the meantime you could help my membership to **REMEMBER last week's** combination for longer than 7 days **JUST IN CASE** John hasn't changed the lock out with the next week's combination just yet. It would be great if you could help me guilt trip the majority of my membership who never supports the NRA or any of our fund raising events and make them realize that the **NRA is the ONLY organization** on this planet that is fighting for their 2nd amendment right to bear arms and enjoy the shooting sports. Help them realize that those other organizations who siphon off their money and do absolutely nothing positive for them personally, do not need or deserve their hard earned money.

The NRA is the only organization that realizes that it isn't the gun or the car involved that is at fault. It is the moron driving the car or behind the gun that is the problem. Just like blaming spoons for Oprah's ordeals or alcohol and drugs for that moron Charlie Sheen's antics is just stupid. Only one organization works every day to support you and what you believe. Our next NRA fund raiser will be Friday February 9th, 2018 and I pray that you will come out to support us and help out your own range and your own interests. We have a couple of awesome pre-event raffles coming up this month, one is a **Cowboys-R-Us 3 gun raffle**, tickets are \$20 each or 6 for \$100 for 3, count them **THREE** Henry Big Boy Rifles in .357 Magnum, .44 Magnum and .45 Colt.

We also have a great 8 gun and 26 gun Winchester Fire safe as one of our raffles, tickets are only \$50 each and we only have 200 of them available. Corporate tables are also available for those of you with businesses, and the guns for those are **absolutely beautiful Kimber .45 Crimson Carry pistols and 8 dinner tickets**. Pretty good deal and a good portion of your \$1,500 is also tax deductible and we get half of the money back to put into our local shooting sports and YOUR range. **and I only have SIX of these available**. This year we are also going to have reduced cost corporate tables with 8 dinner tickets and a chance in a drawing to win a Henry Rifle, prices for those are only \$1,000 each. This is a great way to get in front of approximately 275 FNRA

participants and believers and have them know who you are. They also have lots of disposable income available to them because they actually work or worked for a living lol!

Please teach some of my membership to read so that once our gates are operational that they will follow the damn rules for entry into the RGGC property and figure out what range they can shoot their AR and AK high power rifles on so they stop ruining pistol steel targets by shooting them at 18 inches or less.

Also Santa, please help see that everyone has a Happy and Safe Thanksgiving and Xmas and let Nikki know that I love her deeply and I am truly sorry for leaving the lid up as well as all the other stupid things I did this past year.

This coming Wednesday, November 15th is also a work day, so please come out and help if you can. We need to get the new signs up for our sponsors and for our new electronic gates as well as finish the new Shotgun range so bring cordless power tools, ladders, hammers, gloves etc.

This weeks' combination is: **AND IT CHANGES on WEDNESDAY!!! @!!!!@!!!@ @ @!!**

Thank you for your patience and cooperation, gate training announcement will likely be in the next week to 10 days.

Sincerely,

Mark Bunch/President Royal Gorge Gun Club/Chairman Fremont/Chaffee County Friends of NRA
